PROFILE

I am a highly motivated individual who is up to any task given, specialising in people skills as well as problem solving skills. I specialise in a range of fields from customer service all the way through to software development and team management. I am a communicative and outgoing person looking for a new challenge.

HOBBIES & INTERESTS

I love to keep fit and have been part of a large mountain biking group in my hometown for many years, travelling to Exmoor and Wales for weekend rides as well as local trails.

I have a large interest in computers and have had 3 months' work experience in a repair shop during my teens. I also build computers and play video games in my spare time.
